The opportunity

The Shed is a flexible and spacious venue combining raw industrial features with warm timber accents, and provides you the freedom to make this unique event space truly yours.

The Shed is one of the original shipping maintenance spaces used to repair hardworking vessels. Having been refurbished and featuring 10m high lofty ceilings with suspended lighting, The Shed is a blank canvas making it the perfect space for a range of events.

The venue is easily accessible with free car parking and public transport within walking distance, providing easy connections to the CBD.

The Shed also features an outdoor amphitheater made with original wharf timbers, offering the flexibility to expand your event outdoors, creating additional spaces to host a staged event. The outdoor space is complemented with festoon lighting a misting fan, and large double doors welcoming river breezes.

CREATIVE RESIDENCIES

The Shed provides an inspiring, industrial-style environment for artists, designers, and makers to develop and showcase their work over time. With a preparation-style kitchen, integrated AV, Bluetooth technology, and flexible lighting, it's the perfect space for creative exploration, collaboration and public engagement.

POP-UP RETAIL

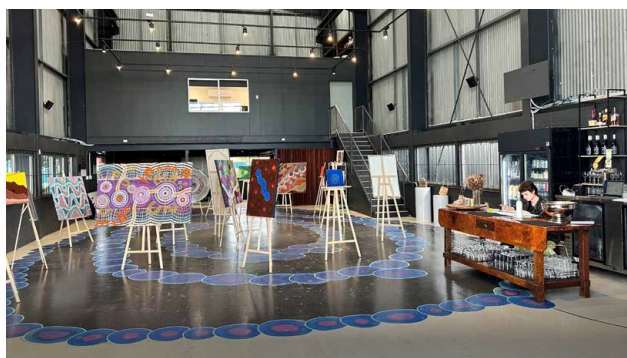

With its open-plan layout, built-in screens, audio system, and high visibility within the Northshore precinct, The Shed is ideal for long-term retail activations. Whether launching a concept store or seasonal showcase, the venue supports immersive brand experiences with the infrastructure to match.

REHEARSAL AND PERFORMANCE SPACE

The Shed's generous floor space, lighting system and AV capabilities make it a standout choice for performing arts groups. Whether used for rehearsals, development, or intimate performances, the venue supports creative freedom and technical needs over an extended period.

COMMUNITY PROGRAMS

Accessible and adaptable, The Shed is a welcoming venue for community-led initiatives, workshops, and educational programs. With modern amenities including AV, Bluetooth connectivity, and a preparation-style kitchen, it's well-equipped to support meaningful, ongoing engagement.
